## ACADEMIC PLAN

Applied Arts is a broad subject area that combines aesthetics, design, consumer need, and finding practical solutions to problems. It is an area in which design and decoration come together to create objects and ideas that are both useful and beautiful. The academic programme consists of four years/eight semesters with a one-year common foundation course in the basics of art, the remaining six semesters are devoted to professional training.

The programme concentrates on the development of basic skills in drawing, color design, and adequate knowledge of the history of arts and Aesthetics. The course is designed to prepare students through intense theoretical input and practical training to develop their intuitive and thinking out of box abilities. The students acquire the understanding of creative use of different media of Painting, Printmaking. They acquire skills in Art in both traditional and digital media. The students also get acquainted with various technical processes of printmaking. At the end of 4th year, students submit a single concept dissertation. student will be equipped in the fields of industrial design, graphic design, fashion design, jewellery design, interior design, advertising, decorative art, functional art, textile design and photography, etc. This course gives full exposure to print media, advertising and electronic media in this digital era.
